**Language Study:** One language at the intermediate level is required. French or German preferred.

Language: \_\_\_\_\_ Completed/certified: \_\_\_\_\_  
Date

Language study may be satisfied by:

- 4 semesters of undergraduate study taken within the last five years, earning a grade of B or better in the last semester. This coursework does not count toward graduate registration requirements because it is undergraduate level.

- French, Italian or German may be satisfied by one semester of coursework, French 391, Italian 301 or German 391 for Reading Knowledge. You must earn a grade of B or better.

- You may also study on your own or through courses offered through the Department of Liberal Studies— Division of Continuing Studies. You must then pass the exam offered at the “Pass” level in the case of German, and at the Intermediate level for Italian, French or Spanish. Contact the Division of Continuing Studies for details, or visit their Web site <http://continuingstudies.wisc.edu/lsa/languages/>

**Residency:**

Doctoral students are required to accumulate 32 graduate level credits on this campus before preliminary exams. With the exception of Teaching Assistants and some other financial aid appointments, enrollment may be part-time with the approval of the student’s major professor. Preliminary exams must be completed within 5 years after admission to the doctoral degree program.

**Preliminary Examinations:** Preliminary Examinations occur in the semester all the above requirements are satisfied, usually the fourth semester of study. Prelims are administered in the Major and Minor areas. Content, design and scheduling of Prelims are determined jointly by Major and Minor Professors. For the Composition Preliminary Exam, the student will analyze 2 or 3 musical works, as determined by the Major Professor. Registration for minimum 2 credits is required in the Prelim semester.

**DMA COMPOSITION: TOTAL MINIMUM NUMBER OF CREDITS BEFORE PRELIMS: 48**

-----  
**DOCTORAL PERFORMANCE AND RESEARCH**

**664-999 (1 credit): Lecture Recital, played AFTER Preliminary Examinations.** The Lecture Recital will be about the student’s composition work, not that of another composer. This work must be an ensemble work for a minimum of 4 or more players. The student must either conduct or play in this piece. Narrating the piece is not acceptable.

Credits	1
Grade	

**Doctoral Research Project, 660-999.** See [D.M.A. Research Project Guidelines](#). After Prelims, continuous registration for three credits is required. Credits may include 660-999 or other research-related courses above 300-level. The Oral Defense with the DMA Performance and Research Committee occurs after ALL work is complete.

**Candidates are to complete the project within a year (two semesters) after advancing to Dissertator status (candidacy).**

Candidates must submit a formal written proposal for the Doctoral Research Project prior to registering for the first semester of 660-999. The proposal should consist of a thorough discussion of the composition to be undertaken, including the title, instrumentation, and duration of both individual movements and the piece of a whole, and compositional techniques and strategies to be used. Since the Doctoral Research Project needs to be completed within a year after advancing to candidacy, candidates should design the project with that in mind.

Although ideally every DMA project will look different, there are a number of criteria students should keep in mind while preparing their DMA projects:

- 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples);
- 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate;
- 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their doctoral committee before starting their projects;
- 4) Examples of successful DMA Research Projects are available in Mills Music Library.

-----  
**Minimum Graduate Degree Credit Requirement**

The Graduate School's minimum graduate degree credit requirement is a degree requirement instituted by the Graduate Faculty Executive Committee to ensure that a graduate degree meets institution accreditation standards (this includes but is not limited to online, thesis/research, independent study, and practicum internships credits).

The doctoral degree minimum graduate degree credit requirement may be achieved with credits earned before or after dissertator status, i.e., during enrollment as a dissertator. The credits applied towards a master's degree, a doctoral minor, or taken as a dissertator shall count towards the related doctoral graduate degree credit requirement.

Minimum Graduate Degree Credit Requirement (may include master's degree credits taken at UW-Madison and credits take while a dissertator)	51 credits
-------------------------------------------------------------------------------------------------------------------------------------------	------------

**Minimum Graduate Residence Credit Requirement**

The Graduate School's minimum graduate residence credit requirement for graduation can be satisfied only with graduate-level courses taken as a graduate student at UW-Madison. The only exception may be graduate-level course work taken as a CIC Traveling Scholar.

The minimum graduate credit residence requirement is a degree requirement instituted by the graduate faculty to ensure that a graduate degree represents preparation beyond course requirements. The minimum graduate credit residence requirement is meant to ensure that, in addition to course work, those who earn graduate degrees have spent sufficient time engaged in their discipline (that is, meeting with professors and peers; participating in research projects and colloquia; using laboratories, clinics, and/or libraries; and generally becoming an active contributor to a research discipline).

**DMA Minimum Graduate Residence Credit Requirement**  
(must be completed prior to achieving dissertator status) 32 credits

All courses taken as a graduate student that are numbered 300 and above in which you receive a grade of A, AB, B, or S will count toward the Graduate School's minimum graduate residence credit requirement. Courses with grades of BC or C count only if there are equal credits of AB and A respectively in non-research courses to offset the lower grades. Courses with grades of P ("in progress") fulfill the Graduate School's minimum credit requirement only if they are research courses. Courses taken for audit or pass/fail, under the 300 level, or in which you receive grades of D or F do not count. You must maintain a cumulative grade-point average of 3.00 (on a 4.00 scale).

Your department may decide to use previous graduate work from another institution toward fulfillment of department course requirements; however, this work will not appear on a UW-Madison transcript, and it does not count toward the Graduate School's minimum credit requirement.
